How can we help?

Daily Living Support can:

- enable you to pursue your goals and aspirations
- provide essential personal care assistance
- support carers and families to find life balance
- make sure the fun things in life can be accessed and enjoyed

Where can we help?

Daily Living Support is many things to many people. Our service provides you with a professional Direct Support Worker (DSW) in the location that best meets your needs, for example:

- **Support in your home** with personal care & general assistance, the provision of respite care or support with study.
- **Support where you need it** such as when attending a sporting event, chores at home, school, TAFE or Uni, going to the movies or out with friends.

What does it cost?

The cost of Montrose Daily Living Support may be provided at no direct cost to the customers through our funding arrangements with the Department of Communities, Child Safety and Disability Services or may be purchased directly through individual funding packages.

Approved funding packages will automatically transition to the NDIS when introduced in your area. The service can be purchased by individuals or organisations.

Why choose Montrose?

Our team of dedicated and experienced Direct Support Workers (DSW) have a wealth of experience in the provision of personal care and community based support.

When using our service you will have access to a Support Coordinator who will work with you to ensure we provide the right DSW for you and your needs.

When using Montrose Daily Living Support you can be assured that your DSW will have current First Aid & CPR certificates, Manual Handling and Child Protection training, appropriate insurances and the backing of an organisation that has been supporting Queenslanders for over 80 years.
